Title: Hopatcong Schools, Camp Innovate

Cynthia Randina, Hopatcong Superintendent of Schools, Announces -

Hopatcong is proud to announce they have received the *Innovate New Jersey Summer Blended and Personalized Learning Competitive grant* and will be hosting the first annual Camp Innovate!! Campers will participate for six weeks in exciting, fun, hands-on activities and field trips. Students will be engaged in exciting projects and will enjoy a unique blended learning experience. Every week includes at least one field trip, exciting adventures, take home projects and computer activities. The themes for the weeks are designed to be rich in activities with varied learning experiences.

The first week's theme is **Act it Out** where students will be involved in learning about stage production, props and costumes and perform for family and friends. **Learning on the Lake** is the second week's adventure; campers will be learning about Lake Hopatcong and research the flora and fauna of the area. They will learn what makes Hopatcong a special place in which to live and work, and they will write a letter to help make a great lake even greater! During **Crime Scene Investigation** students will be analyzing fingerprints and data to search for clues to solve a crime. **Robotics** will have the students figuring out the designs of robots and building a mini robot to take home. During the **Summer Olympics** campers will participate in sports, discuss and read about the Olympics in Rio. **Cook it Up** will be the last themed week and will have farewell barbeque at the lake. Students will be preparing a menu, shopping and cooking the meal for friends and family to culminate Camp Innovate.
