Hudson Maxim Students Go Gold for Pediatric Cancer Awareness

FOR IMMEDIATE RELEASE, September 29, 2017

Dr. Joanne Mullane, Hopatcong Acting Superintendent of Schools, Announces

On September 29, 2017 the students and staff members of Hudson Maxim School in Hopatcong participated in the 7th Annual “Go Gold Day” for Pediatric Cancer Awareness month by wearing yellow or gold to school. Students were excited to show their support of Pediatric Cancer Awareness by sharing a positive attitude and filling buckets with kind things they say and do on this special day. Less than 4% of Federal funding is dedicated to pediatric cancer research each year. 15,000 children are diagnosed each year with pediatric cancer. Go Gold Day was sponsored by Go 4 the Goal, whose mission is to improve the lives of children battling cancer by providing financial support, creating unique hospital programs, wish granting, and funding innovative research. This year the staff members donated money in support of two families from Hopatcong whose children are currently undergoing treatment for pediatric cancer. For more information, contact Lisa Schuffenhauer or visit Go4theGoal.org .
