

Learning Today. Leading Tomorrow.

Team Bucket Fillers

FOR IMMEDIATE RELEASE, October 17, 2017

Dr. Joanne Mullane, Hopatcong Acting Superintendent of Schools, Announces

The student Culture and Climate Team, Team Bucket Fillers, is underway at Hudson Maxim School in Hopatcong. For the first meeting, the students talked about having the best school ever! They put their brainstorming into pictures at the first team meeting of the year. Team Bucket Fillers will meet monthly, as a part of the United Way Culture and Climate Initiative in Hopatcong Schools. Some ideas for a great school included a garden to grow vegetables, planting more flowers, and having a stand with fresh fruit. Students will see their ideas come to life throughout the year as they work to make every student feel like a part of the Hudson Maxim family and enjoy coming to school.
