Hopatcong, NJ - Hopatcong Middle School Student Art Receives Recognition

Cynthia Randina, Hopatcong Superintendent of Schools, Announces -

In the first time that the Hopatcong Middle School has submitted works to Teen Arts, there were four pieces presented. They included two by Isabella Barbiero (8th Grade), one by Kristina Silva (8th Grade), and one by Sean Cranmer (7th Grade).

Of the two pieces submitted by Isabella, one entitled "Hayley Williams", was selected for a continuing exhibition at Sussex County Community College. The other piece, entitled "Emotions", was selected for exhibition by the Sussex County Cultural Arts & Heritage Foundation and will be used for reproduction in SCCA&H press releases and promotional literature.

The drawing by Kristina Silva, entitled "Bradley", was also selected for the continuing exhibition at Sussex County Community College.

The three 8th Graders students who attended the event Isabella Barbiero, Kristina Silva and Danielle Fawthrop all had a positive experience. This opportunity provided them with insight as to where they stand with their peers and some sense of the social significance of artistic expression.
