Love Is My Superpower

By: Alicia Ortego

"Have you heard the question, 'Mummy, do you love me?' or 'Who do you love the most?' It's never easy to answer, especially to a little one who thinks your heart belongs only to them. Bowen is the center of his parents' world. But what will happen when baby Bella comes into that world? Will his parents still love him, or will their hearts belong to someone else? Through fun interactions with his mum, Bowen will realize that his heart is big enough to love more than one person at a time.

"Love is My Superpower" will help your children understand how powerful love is."
